Raises Fiscal 2021 Outlook***

DODGEVILLE, Wis., June 02, 2021 (GLOBE NEWSWIRE) -- Lands' End, Inc. (NASDAQ: LE) today announced financial results for the first quarter ended April 30, 2021.

### Fiscal First Quarter Financial Highlights:

- For the first quarter, net revenue was \$321.3 million, an increase of 48.1% from \$217.0 million in the first quarter of fiscal 2020 and an increase of 22.4% from \$262.4 million in the first quarter of fiscal 2019.
  - Global eCommerce net revenue was \$260.0 million, an increase of 44.4% from \$180.0 million in the first quarter of fiscal 2020 and an increase of 25.5% from \$207.2 million in the first quarter of fiscal 2019. Compared to the first quarter of last year, U.S. eCommerce increased 46.6% and International eCommerce grew 37.0%.
  - Outfitters net revenue was \$40.7 million, an increase of 27.9% from \$31.8 million in the first quarter of fiscal 2020 and a decrease of 5.6% from \$43.1 million in the first quarter of fiscal 2019. Compared to the first quarter last year, the increase was driven by stronger demand within the Company's travel-related national accounts and school uniform customers.
  - Third Party net revenue, which includes sales on third-party marketplaces and U.S. wholesale revenues, was \$11.8 million in the first quarter compared to \$1.5 million in the first quarter last year. The \$10.3 million increase was attributed to the launch of Lands' End product on Kohls.com and at 150 Kohl's retail locations in third quarter 2020.
- Gross margin was 46.0%, expanding approximately 260 basis points compared to 43.4% in the first quarter of fiscal 2020 and approximately 30 basis points compared to 45.7% in the first quarter of fiscal 2019. The Gross margin increase was primarily due to merchandise margin expansion in the U.S. eCommerce channel driven by improved promotional strategies and continued use of analytics, offset by increased shipping costs and surcharges as well as higher sales mix from the lower-margin Third Party channel.
- Selling and administrative expenses increased \$19.7 million to \$125.5 million or 39.1% of net revenue, compared to \$105.8 million or 48.8% of net revenue, in the first quarter of last year. The increase in expense is due to COVID-19 related actions to reduce operating expenses and structural costs taken in first quarter of fiscal 2020. The approximately 970 basis point decrease was due to leverage from higher sales, slightly offset by increased digital marketing expenses. This was also an approximately 540 basis point improvement compared with the first quarter of 2019 despite the higher digital marketing expenses.
- Net income was \$2.6 million or \$0.08 per diluted share, as compared to net loss of \$20.6 million or (\$0.64) per diluted share in the first quarter of fiscal 2020 and net loss of \$6.8 million or (\$0.21) per diluted share in the first quarter of fiscal 2019.
- Adjusted EBITDA was \$22.5 million in the first quarter of fiscal 2021, an increase of \$34.1 million compared to a loss of \$11.6 million in the first quarter of fiscal 2020 and an increase of \$19.5 million compared to earnings of \$3.0 million in the first quarter of fiscal 2019.

Jerome Griffith, Chief Executive Officer, stated, "We are extremely pleased with our first quarter results, which exceeded our expectations and illustrate the sustained momentum in our business. Our Global eCommerce business is stronger than ever as we continued to execute our digitally led product and marketing strategies while the recovery in Outfitters is occurring at a faster pace than we expected. In addition to the better than expected revenue growth in the quarter, through gross margin expansion and effective cost controls, we delivered a \$34.1 million improvement in Adjusted EBITDA, as we continued to focus on driving profitability. We believe we have a strong foundation in place and an expanding total addressable market, and I am extremely excited for our significant opportunities that lie ahead."

### Fiscal First Quarter Business Highlights:

- Total Global eCommerce customer file expanded by 27% with 71% growth in new customers.
- Recovery in Outfitters business exceeded expectations led by travel-related national accounts and school uniform

customers.

- Data analytics drove higher merchandise margin through price optimization and inventory management.
- The number of brands available on Lands' End Marketplace continued to grow, expanding customer reach.

### **Balance Sheet and Cash Flow Highlights**

Cash and cash equivalents were \$36.2 million as of April 30, 2021, compared to \$59.1 million as of May 1, 2020.

Net cash used in operations was \$38.7 million for the 13 weeks ended April 30, 2021, compared to \$80.2 million for the 13 weeks ended May 1, 2020.

**Use and Definition of Non-GAAP Financial Measures**

Adjusted EBITDA - In addition to our Net income (loss) determined in accordance with GAAP, for purposes of evaluating operating performance, the Company uses an Adjusted EBITDA metric. Adjusted EBITDA is computed as Net income (loss) appearing on the Condensed Consolidated Statements of Operations net of Income tax expense/(benefit), Interest expense, Depreciation and amortization and certain significant items as set forth below. Our management uses Adjusted EBITDA to evaluate the operating performance of our business for comparable periods, as well as the basis for an executive compensation metric. The methods used by the Company to calculate its non-GAAP financial measures may differ significantly from methods used by other companies to compute similar measures. As a result, any non-GAAP financial measures presented herein may not be comparable to similar measures provided by other companies. Adjusted EBITDA should not be used by investors or other third parties as the sole basis for formulating investment decisions as it excludes several important cash and non-cash recurring items.

While Adjusted EBITDA is a non-GAAP measurement, management believes that it is an important indicator of operating performance, and useful to investors, because:

- EBITDA excludes the effects of financings, investing activities and tax structure by eliminating the effects of interest, depreciation and income tax.
- Other significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, which affects comparability of results. We have adjusted our results for these items to make our statements more comparable and therefore more useful to investors as the items are not representative of our ongoing operations.

- For the 13 weeks ended May 1, 2020 we excluded the impact of the non-cash write-down of certain goodwill and long-lived assets.
- For the 13 weeks ended April 30, 2021 we excluded amortization of transaction related costs associated with Third Party channel.
- For the 13 weeks ended April 30, 2021 and May 1, 2020 we excluded the impacts of loss on property and equipment as management considers the gains or losses on asset valuation to result from investing decisions rather than ongoing operations.
