LANDS' END, INC. & SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Information pertaining to October 27, 1995, and the three months ended October 27, 1995, and October 28, 1994, is unaudited)

The condensed consolidated financial statements included herein have been prepared by Lands' End, Inc. (the company), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission, and in the opinion of management contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the company believes that the disclosures are adequate to make the information presented not misleading. The results of operations

for the interim periods disclosed within this report are not necessarily indicative of future financial results. These consolidated financial statements are condensed and should be read in conjunction with the financial statements and the notes thereto included in the company's latest Annual Report on Form 10-K, which includes financial statements for the year ended January 27, 1995.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Nature of business

Lands' End, Inc., (the company) is a direct marketer of traditionally styled apparel, domestics (primarily bedding and bath items), soft luggage, and other products.

#### Principles of consolidation

The consolidated financial statements include the accounts of the company and its subsidiaries after elimination of intercompany accounts and transactions.

#### Fiscal year

The company utilizes a 52-53 week fiscal year ending on the Friday nearest January 31. Fiscal 1996 will be a 53-week year ending on February 2, 1996. The additional week will be added in the fourth quarter of fiscal 1996.

#### Fair values of financial instruments

The fair value of financial instruments does not materially differ from their carrying values.

#### Inventory

Inventory, primarily merchandise held for sale, is stated at last-in, first-out (LIFO) cost, which is lower than market. If the first-in, first-out (FIFO) method of accounting for inventory had been used, inventory would have been approximately \$20.6 million and \$18.9 million higher than reported at October 27, and January 27, 1995, respectively.

#### Catalog costs

Prepaid expenses primarily consist of catalog production and mailing costs that have not yet been fully amortized over the expected revenue stream, which is within six months from the date catalogs are mailed. The company's reporting of such advertising costs is in conformance with the provisions of the AICPA Statement of Position No. 93-7, "Reporting on Advertising Costs," which became effective for the company in the first quarter of fiscal 1996.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Information pertaining to October 27, 1995, and the three months ended October 27, 1995, and October 28, 1994, is unaudited)

#### Depreciation

Depreciation expense is calculated using the straight-line method over the estimated useful lives of the assets, which are 20 to 30 years for buildings and land improvements and 5 to 10 years for leasehold improvements and furniture, fixtures, equipment, and software. The company provides one-half year of depreciation in the year of addition and retirement.

#### Intangibles

Intangible assets consist of goodwill in excess of the fair market value of net assets of businesses purchased. Goodwill is being amortized over 40 years on a straight-line basis. Other intangibles are amortized over a shorter life. Total accumulated amortization of these intangibles was \$0.4 million and \$0.3 million as of October 27, and January 27, 1995, respectively.

#### Net income per share

Net income per share is computed by dividing net income by the weighted average number of common shares outstanding during each period. The weighted average common shares outstanding were 33.9 million and 34.9 million for the three-month periods ended October 27, 1995, and October 28, 1994, respectively; and 34.4 million and 35.3 million for the nine-month periods ended October 27, 1995, and October 28, 1994, respectively. Common stock equivalents includes awards, grants and stock options which have been issued by the company. The common stock equivalents do not significantly dilute basic earnings per share.

Reserve for losses on customer returns At the time of sale, the company provides a reserve equal to the gross profit on projected merchandise returns, based on its prior returns experience.

Financial instruments with off-balance-sheet risk
The company is party to financial instruments with off-balance-sheet risk in
the normal course of business to reduce its exposure to fluctuations in
foreign currency exchange rates and to meet financing needs.

The company enters into forward exchange contracts to hedge anticipated foreign currency transactions during the upcoming seasons. The purpose of the company's foreign currency hedging activities is to protect the company from the risk that the eventual dollar cash flows resulting from these transactions will be adversely affected by changes in exchange rates. At October 27, 1995, the company had forward exchange contracts, maturing through January 1997, to sell approximately 2.1 billion yen and 2.4 million British pounds, and to purchase approximately 1.8 million Canadian dollars. The gains and losses on the outstanding forward exchange contracts are reflected in the financial statements in the period in which the currency fluctuation occurs.

The company also uses import letters of credit to purchase foreign-sourced merchandise. The letters of credit are primarily U.S. dollar-denominated and are issued through third-party financial institutions to guarantee payment for such merchandise within agreed upon time periods. At October 27, 1995, the company had outstanding letters of credit of approximately \$20.2 million, all of which had expiration dates of less than 1 year.

LANDS' END, INC. & SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Information pertaining to October 27, 1995, and the three months ended October 27, 1995, and October 28, 1994, is unaudited)

The counterparty to the financial instruments discussed above is primarily two large financial institutions; management believes the risk of counterparty nonperformance on these financial instruments is not significant.

Foreign currency translation

Financial statements of the foreign subsidiaries are translated into U.S. dollars in accordance with the provisions of SFAS 52. Translation adjustments are accumulated in a separate component of stockholder's equity. Foreign currency translation gains were not material for the nine-month periods ended October 27, 1995 and October 28, 1994, respectively.

Postretirement benefits

The company does not currently provide any postretirement benefits for employees other than profit sharing.

Reclassification

Certain financial statement amounts have been reclassified to be consistent with the fiscal 1996 presentation.

NOTE 2. ACCOUNTING CHANGES

The Financial Accounting Standards Board has issued Statement Nos. 112 and 115, "Employer's Accounting for Post-employment Benefits" and "Accounting for Certain Investments in Debt and Equity Securities," respectively. The company adopted these standards in fiscal 1995, and there is no material impact on its financial statements.

#### NOTE 3. SHAREHOLDERS' INVESTMENT

Capital stock

The company currently has 160 million shares of \$0.01 par value common stock. The company has authorized 5 million shares of preferred stock, \$0.01 par value. The company's board of directors has the authority to issue shares and to fix dividends, voting and conversion rights, redemption provisions, liquidation preferences, and other rights and restrictions of the preferred stock.

Treasury stock

The company's board of directors has authorized the purchase of a total of 8.2 million shares of the company's common stock. A total of 7.3 million and 6.2 million shares had been purchased as of October 27, and January 27, 1995, respectively.

#### Stock awards and grants

The company has a restricted stock award plan. Under the provisions of the plan, a committee of the company's board of directors may award shares of the company's common stock to its officers and key employees. Such shares vest over a ten-year period on a straight-line basis from the date of the award.

In addition, the company granted shares of its common stock to individuals as an inducement to enter the employ of the company.

The granting of these awards and grants has been recorded as deferred compensation based on the fair market value of the shares at the date of grant. Compensation expense under these plans is recorded as shares vest.

#### Stock options

The company has 2.5 million shares of common stock, either authorized and unissued shares or treasury shares, that may be issued pursuant to the exercise of options granted under the company's stock option plan. Options are granted at the discretion of a committee of the company's board of directors to officers and key employees of the company. No option may have an exercise price less than the fair market value per share of the common stock at the date of grant.

Activity under the stock option plan is as follows:

		Average

The above options currently outstanding vest over a 5 year period from the date of grant. The outstanding options expire as follows:

1995 - 100,000 2001 - 72,000 2002 - 40,000 2003 - 201,600 2005 - 328,100 741,700

#### NOTE 4. INCOME TAXES

Under the liability method prescribed by the Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes," deferred taxes are provided based upon enacted tax laws and rates applicable to the periods in which taxes become payable.

Temporary differences that give rise to deferred tax assets and liabilities as of October 27, and January 27, 1995, are as follows (in thousands):

	Current Deferred		Long-term Deferred		
	Tax Benefit		Tax Liabi	oilities	
	Oct. 27,	Jan. 27,	Oct. 27,	Jan. 27,

Other	1,690	250	_	_	
Total	\$ 9,592	\$ 8,412	\$ 5 <b>,</b> 379	\$ 5 <b>,</b> 379	

The valuation allowance required under SFAS No. 109 has been established for the deferred income tax benefits related to certain subsidiary loss carryforwards, which may not be realized.

In the periods presented, the differences between income taxes at the statutory federal income tax rate of 35 percent, and income taxes reported in the consolidated statements of operations are due primarily to the effect of state income taxes.

#### NOTE 5. LINES OF CREDIT

The company has unsecured lines of credit with various banks totaling \$110 million. There was \$90.7 million outstanding at October 27, at interest rates averaging 6.3%, compared to no outstanding amount on January 27, 1995.

In addition, the company has unsecured lines of credit with foreign banks totaling the equivalent of \$23 million for a wholly owned foreign subsidiary. There was \$13.4 million outstanding at October 27, at interest rates averaging 1.8%, compared to \$7.5 as of January 27, 1995.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Information pertaining to October 27, 1995, and the three months ended October 27, 1995, and October 28, 1994, is unaudited)

There was no long-term debt as of October 27, and January 27, 1995.

The company has an agreement that expires December 31, 1995, with a bank for a \$20 million credit facility available to fund treasury stock purchases and capital expenditures.

#### NOTE 7. LEASES

The company leases store and office space and equipment under various leasing arrangements. The leases are accounted for as operating leases. Total rental expense under these leases was \$3.0 million and \$1.8 million for the threemonth periods ended October 27, 1995, and October 28, 1994, respectively. Rental expense for the nine-month periods ended October 27, 1995, and July 29, 1994, was \$8.6 million and \$5.8 million, respectively.

Total future fiscal year commitments under these leases as of October 27, 1995, are as follows (in thousands):

1996	(three	months)	\$	2,470
1997				9,197
1998				6,420
1999				3,969
2000				2,714
After	2000			4,025
			\$2	28,795

#### NOTE 8. RETIREMENT PLAN

The company has a retirement plan which covers most regular employees and provides for annual contributions at the discretion of the board of directors. Also included in the plan is a 401(k) feature which allows employees to make contributions and the company matches a portion of those contributions. Total expense provided under this plan was \$0.8 million and \$0.7 million for the three-month periods ended October 27, 1995, and October 28, 1994, respectively. Total expenses were \$1.7 million and \$1.8 million for the ninemonth periods ended October 27, 1995, and October 28, 1994, respectively.

As of October 1, 1995, the "Lands' End, Inc. Retirement Plan" was amended to allow certain participants to invest participant elective contributions, employer matching contributions, and profit sharing contributions in a "Lands' End, Inc. Stock Fund" established primarily for investing in common stock of the company at the fair market value. The company has assigned 200,000 shares for this plan.

#### NOTE 9. ACQUISITION AND ANTICIPATED DISPOSITION

In July 1994, the company formed a wholly-owned subsidiary that acquired the marketing rights and assets of MontBell America, Inc., which designs, develops and distributes premier technical outdoor clothing and equipment through the wholesale channel to outdoor specialty stores, primarily in the United States. In February 1995, the company announced its intention to sell its wholly-owned subsidiary MontBell America, Inc.

(Information pertaining to October 27, 1995, and the three months ended October 27, 1995, and October 28, 1994, is unaudited)

In March 1993, the company purchased a majority interest in a catalog company, The Territory Ahead. Merchandise offered in the catalog consists of private label sportswear, accessories and luggage. Beginning in 2003, the minority shareholders have the option to require the company to purchase their shares, and the company will have the option to require the minority shareholders to sell their shares in The Territory Ahead. The price per share would be based on the fair market value of The Territory Ahead.

Results of operations of MontBell America, Inc., and The Territory Ahead were not material to the company, and as a result, no pro forma data is presented. The transactions were accounted for using the purchase method. The excess of the purchase price over the fair value of net assets was recorded as goodwill. The operating results of MontBell America, Inc., and The Territory Ahead are

included in the consolidated financial statements of the company from their respective dates of acquisition.

#### NOTE 10: SALES AND USE TAX

A 1992 Supreme Court decision confirmed that the Commerce Clause of the United States Constitution prevents a state from requiring the collection of its use tax by a mail order company unless the company has a physical presence in the state. However, there continues to be uncertainty due to inconsistent application of the Supreme Court by state and federal courts. The company attempts to conduct its operations in compliance with its interpretation of the applicable legal standard, but there can be no assurance that such compliance will not be challenged. In recent challenges various states have sought to require companies to begin collection of use taxes and/or pay use taxes from previous sales.

The Supreme Court decision also established that Congress has the power to enact legislation which would permit states to require collection of use taxes by mail order companies. Congress has from time to time considered proposals for such legislation. The company anticipates that any legislative change, if adopted, would be applied only on a prospective basis.

13

#### Item 2.

Management's Discussion and Analysis

Results of Operations

Three Months Ended October 27, 1995, compared with Three Months Ended October 28, 1994

The company's net sales in the third quarter of fiscal 1996 decreased 4.2 percent to \$235.9 million from \$246.2 million in the third quarter of fiscal 1995. During the quarter just ended, sales from the company's core business, represented by the monthly and prospecting catalogs, were lower than the prior year. While the number of catalogs mailed was increased during the quarter just ended, the average number of pages per catalog was reduced. The decline in sales was partially offset by strong sales increases from the company's international businesses. The lower sales trend in the company's core business has continued into the fourth quarter.

The third quarter ending inventory was about \$260 million, compared with about \$255 million a year ago.

Gross profit in the quarter just ended was \$99.9 million, or 42.4 percent of net sales, compared with \$100.2 million, or 40.7 percent of net sales, in the third quarter of the prior year. The increase in gross profit margin was due to lower merchandise costs, primarily the result of sourcing improvements, and stronger growth in higher margin businesses. Liquidations of excess inventory were about 13 percent of net sales in the quarter just ended, compared with about 15 percent last year.

For the third quarter this year, selling, general and administrative expenses increased 5.2 percent to \$98.4 million, compared with \$93.5 million for the similar quarter last year. As a percentage of net sales, SG&A was 41.7 percent, compared with 38.0 percent in the same period last year. The increase in the SG&A ratio was primarily the result of higher paper prices and postal rates, as well as lower sales per catalog mailed in the U.S. International and new businesses, which have higher operating costs, experienced stronger growth rates during the quarter compared with the company's core and specialty businesses. This also had a negative impact on the SG&A ratio.

Net income for the quarter just ended was \$1.8 million, or 5 cents per share, down 54 percent from the \$3.8 million, or 11 cents per share, earned in the prior year. Net income after taxes for the current year's third quarter includes \$1.4 million attributable to foreign currency exchange gains, recorded as other income. Foreign currency exchange gains or losses will

occur in response to currency market movements and the company's hedging strategy.

Nine Months Ended October 27, 1995, compared with Nine Months Ended October 28, 1994

The company's net sales in the first nine months of fiscal 1996 increased 3.1 percent to \$632.1 million from \$613.1 million in the same period last year. The company's international businesses, as well as its new and specialty businesses, accounted for the increase in net sales.

14

Gross profit of \$273.8 million for the first nine months of fiscal 1996 increased 6.5 percent from \$257.2 million in the same nine-month period last year. As a percentage of net sales, gross profit increased from 42.0 percent in fiscal 1995 to 43.3 percent in fiscal 1996. The increase in gross profit was due principally to the same factors disclosed above for the third quarter ended October 27, 1995. Year-to-date liquidation sales were about 11 percent, compared with 12 percent during the same period last year.

Selling, general and administrative expenses increased 13.1 percent to \$268.2 million in the first nine months of fiscal 1996 from \$237.1 million in the same period last year. As a percentage of net sales, selling, general and administrative expenses increased to 42.4 percent in fiscal 1996 from 38.7 percent in fiscal 1995. The increase in selling, general and administrative expenses was the result of the same factors mentioned above for the third quarter ended October 27, 1995.

Net income in the first nine months of fiscal 1996 was \$4.8 million, or 14 cents per share, compared with \$12.1 million, or 34 cents per share in the prior year.

#### Seasonality of Business

The company's business is highly seasonal. Historically, a disproportionate amount of the company's net sales and a majority of its profits have been realized during the fourth quarter. If the company's sales were materially different from seasonal norms during the fourth quarter, the company's annual operating results could be materially affected. In addition, as the company continues to refine its marketing efforts by experimenting with the timing of its catalog mailings, quarterly results may fluctuate. Accordingly, results for the individual quarters are not necessarily indicative of the results to be expected for the entire year.

#### Liquidity and capital resources

To date, the bulk of the company's working capital needs have been met through funds generated from operations and from short-term bank loans. The company's principal need for working capital has been to meet peak inventory requirements associated with its seasonal sales pattern. In addition, the company's resources have been used to purchase treasury stock, make asset additions, and acquire new businesses.

During fiscal 1995, the board of directors evaluated its dividend practice whereby it had paid annual dividends. Given the company's intent to buy back additional shares, the board determined that the current practice was no longer desirable and payment of a cash dividend is not planned for the foreseeable future.

The company continues to explore investment opportunities arising from the expansion of its international businesses, the development of new businesses and the acquisition of existing businesses. While this investment spending has had a negative impact on earnings, it is not expected to have a material effect on liquidity.

At October 27, 1995, the company had unsecured domestic credit facilities totaling \$110 million, of which the company had used \$90.7 million primarily to fund inventory purchases. The company also maintains foreign credit lines for use in foreign operations totaling the equivalent of approximately \$23 million, of which \$13.4 million was used at October 27, 1995.

The company has a separate \$20 million bank facility available to fund treasury stock purchases and capital expenditures. This facility runs through December 31, 1995.

Since June 1989, the company's board of directors has authorized the company from time to time to purchase a total of 8.2 million shares of treasury stock, of which 7.4 million shares have been purchased as of December 8, 1995. For further information, see note 3 to the consolidated financial statements.

Capital expenditures for fiscal 1996 are currently planned to be about \$16 million, of which about \$11 million had been expended through October 27, 1995. Major projects include new computer hardware and software and material handling equipment.

#### Possible future changes

A 1992 Supreme Court decision confirmed that the Commerce Clause of the United States Constitution prevents a state from requiring the collection of its use tax by a mail order company unless the company has a physical presence in the state. However, there continues to be uncertainty due to inconsistent application of the Supreme Court by state and federal courts. The company attempts to conduct its operations in compliance with its interpretation of the applicable legal standard, but there can be no assurance that such compliance will not be challenged. In recent challenges various states have sought to require companies to begin collection of use taxes and/or pay use taxes from previous sales.

The Supreme Court decision also established that Congress has the power to enact legislation which would permit states to require collection of use taxes by mail order companies. Congress has from time to time considered proposals for such legislation. The company anticipates that any legislative change, if adopted, would be applied only on a prospective basis.
